

Custom LOOKS FOR LESS...

"A NEW AGE LINE OF
OLD WORLD DESIGN"

Long known for its strength and durability when applied outside the home, Concrete Technology has become synonymous with quality flooring. CTi now introduces its "Stone Classics" System, a perfect floor covering for the main areas inside your home such as living rooms, playrooms, bedrooms, basements, kitchens, and garage floors. The "Stone Classics" System offers grout lines that will not stain plus a limitless number of colors and patterns to choose from.

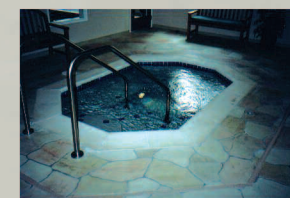

The "Stone Classics" finish comes in a number of standard designs to suit your particular needs. Whether it's marble, granite or something completely unique, the "Stone Classics" is a versatile finish that can compliment any area.

The ability of covering floors, countertops and walls allows you to tie in the look of an entire room. The CTi System is much stronger than products such as terrazzo or tile. It also offers numerous advantages not available in traditional products. Ask your representative for all the advantages you can realize with CTi, or log on to www.designcti.com.

CTi IS A *State of the Art* COATING

The CTi "Stone Classics" System is a true state-of-the-art coating that resurfaces old and new concrete around the home. It is perfect for areas where you need a tough, but beautiful floor covering. The CTi "Stone Classics" System will give your home a custom built look for a lot less money. It is a unique formulation of acrylics and resins that bond with concrete to create a tough surface that resists chipping and staining and retains its rich coloring for years to come.
